4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village's Public Education and Outreach program will be tailored to describe topics related to the impacts of stormwater discharges on local water bodies, pollutants of concern and their sources, and the steps that can be taken to reduce pollutants in stormwater runoff and non-stormwater impaired waters listed in Appendix 2 of the General Permit.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Due to the seasonal nature of many of the residents in the Village, typical Phase II measures are not always effective or efficient. As a result, the Village has chosen to evaluate the number of direct mailings as an indicator for measuring the overall effectiveness of the Village's compliance with the Public Education and Outreach program requirements. There was one direct mailing sent in this reporting period related to stormwater/pollution prevention.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this Measurable Goal during this reporting period?
 Yes No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
 Yes No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village plans to continue evaluating the number of direct mailings as an indicator for measuring the overall effectiveness of the Village's compliance with the Public Education and Outreach program requirements in the next reporting cycle. The Village will continue to distribute information related to stormwater and/or pollution prevention in the next reporting period.

7. Evaluating Progress Toward Measurable Goals MCM 2

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.

The Village Public Involvement and Participation program will incorporate stewardship activities that help to reduce pollutants of concern (i.e., the discharge of pathogens to the local impaired waters listed in Appendix 2 of the General Permit) and encourage the general public, residents and businesses to become involved in stormwater management and environmental stewardship events.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Due to the seasonal nature of many of the homes and residents in the Village, typical Phase II measures are not always effective or efficient. As a result, the Village has chosen to evaluate the number of comments received as an indicator for measuring the overall effectiveness of the Village's compliance with the Public Involvement and Participation program requirements. There were no comments received in this reporting period on the Village Stormwater Management Program.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?
 Yes No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMP?
 Yes No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village plans to continue evaluating the number of comments received on the Stormwater Management Program as an indicator for measuring the overall effectiveness of the Village's compliance with the Public Involvement and Participation program requirements in the next reporting cycle. The Village will continue to provide the public the opportunity to comment on the Stormwater Management Program Plan and Annual Report.
